PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in React.js, Python, Django, Django REST Framework, MySQL, HTML, CSS and JavaScript. Recently completed a Full Stack Development Internship and worked on CRM application development, REST APIs, authentication, database integration, and role-based access control. Prior experience in software development, automation testing, RPA, and enterprise application support.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap, Material UI

Backend: Python, Django, Django REST Framework

Database: MySQL, DB2

Tools: Git, GitHub, Postman, VS Code, Eclipse, Selenium, Automation Anywhere

Other: REST APIs, Authentication, Authorization, Agile Methodology

PROJECTS

CRM Application (React.js, Django REST Framework, PostgreSQL)

- Developed Lead, Deal, Task, Ticket and User Management modules.
- Built REST APIs and integrated them with React frontend.
- Implemented authentication and role-based access control.
- Developed CRUD operations and dashboard functionalities.
- Used Git and GitHub for version control and collaboration.

E-Commerce Application

Tech Stack: Next.js, Python, Django REST Framework, PostgreSQL, JWT Authentication

- Developed a full-stack e-commerce platform with product listing, product details, shopping cart, and order management features..
- Built secure REST APIs using Django REST Framework for product, user, and order management..
- Implemented JWT Authentication for secure login, registration, and protected routes. Developed CRUD operations and dashboard functionalities.
- Integrated Next.js frontend with Django backend APIs for seamless user experience.
- Developed responsive UI components and optimized application performance.

- Managed database operations using PostgreSQL and implemented efficient API communication.
- Used Git and GitHub for version control and collaborative development.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Upcode Software Labs (Nov 2025 – May 2026)

- Developed web applications using React.js and Django.
- Built REST APIs and integrated frontend with backend services.
- Worked with MySQL database and application testing.

Automation Tester – Tata Consultancy Services (Sep 2021 – Mar 2022)

- Worked on Python, Selenium, Django and REST endpoints.
- Performed automation testing, defect fixing and unit testing.

RPA Support Engineer – Tata Consultancy Services (Aug 2020 – May 2021)

- Supported finance and supply chain automation processes.

Java Developer – Tata Consultancy Services (May 2018 – Dec 2018)

- Worked on Java application development, testing and debugging.

RPA Developer – Tata Consultancy Services (Jul 2016 – Apr 2018)

- Developed Software bots using Automation Anywhere.

CERTIFICATIONS

Automation Anywhere Advanced 360 Certification
Full Stack Development (React.js & Python)

EDUCATION

Master of Engineering – VLSI Design
Bachelor of Technology – Electronics and Communication Engineering
